

RIPPLE FIBER®

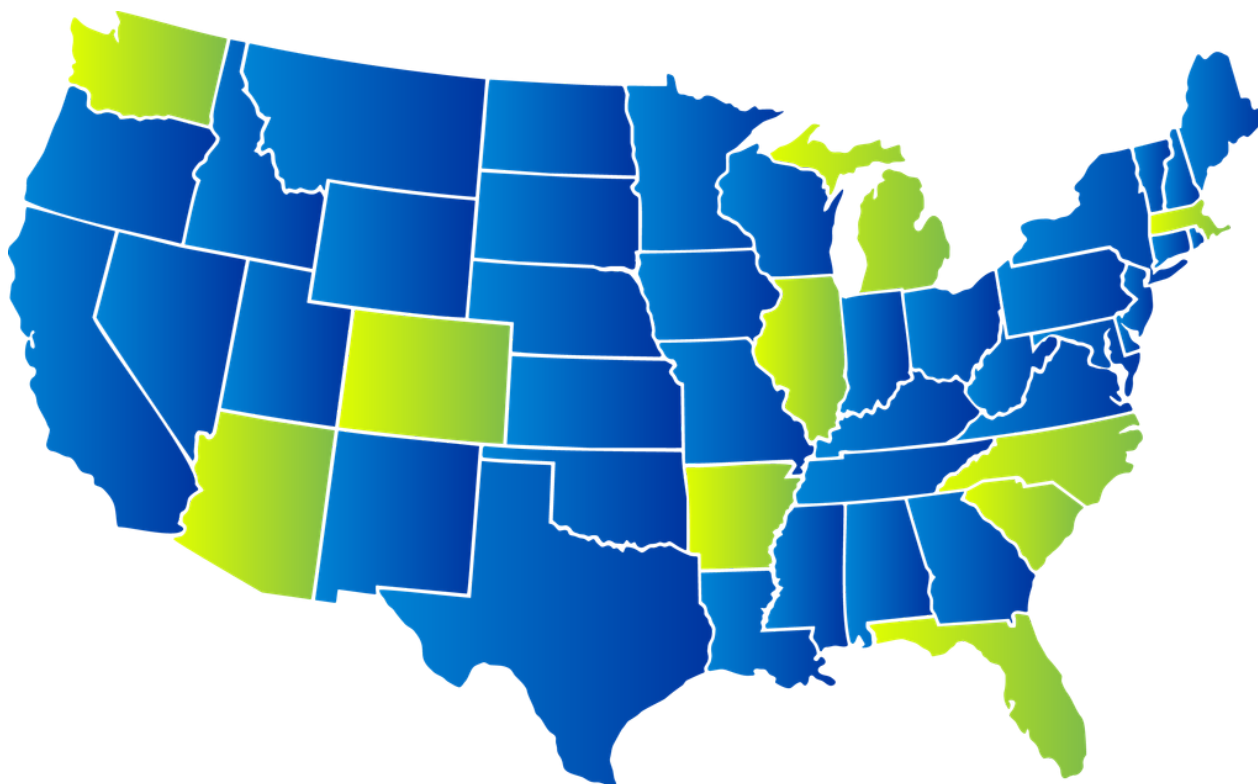

Press Kit

WHO WE ARE

Founded in 2021, **Ripple Fiber®** provides thousands of homes and businesses with brighter, faster fiber internet built for the *speed of life*. Powered by a 10-gig, 100% fiber-optic network, we're redefining connectivity for communities across 10 states while expanding access to reliable, future-proof internet. **We believe the biggest wave starts as a ripple.**

AREAS WE SERVE

- Arizona
- Colorado
- Florida
- Michigan
- North Carolina
- Arkansas
- Illinois
- Massachusetts
- New Mexico
- South Carolina
- Washington

LEADERSHIP

GREG WILSON -
FOUNDER / CEO

Wilson has over 20 years of telecommunications and business development experience. With an impressive entrepreneurial track record, he has the ability to identify business opportunities and validate business models. Most recently founding Ripple Fiber, Wilson has built multiple infrastructure and software service companies disrupting the telecom industry.

“We are for creating
brighter futures.”

THE RIPPLE EFFECT

To us, it's more than just internet. We're here to empower people to make genuine connections. With friends, whether they're in the same room or across the globe. With artists and creators through instant access to every song, book, and film ever created. With educators in classrooms on different continents. We're for those working from their homes with teams in different time zones.

For helping people access opportunities previous generations could have only dreamed of.

It's about optimism. It's about believing that small actions can have big impacts.

We are Ripple Fiber.

COMMUNITY IMPACT

We believe in creating stronger connections – starting with you. With dedicated local teams, we're not just a service provider; we're your neighbors.

As fellow community members, we champion local initiatives, invest in digital infrastructure, and create opportunities for a brighter future.

We strive to be a force for good, leaving a lasting, positive impression on the world around us.

WHITE GLOVE INSTALLATION

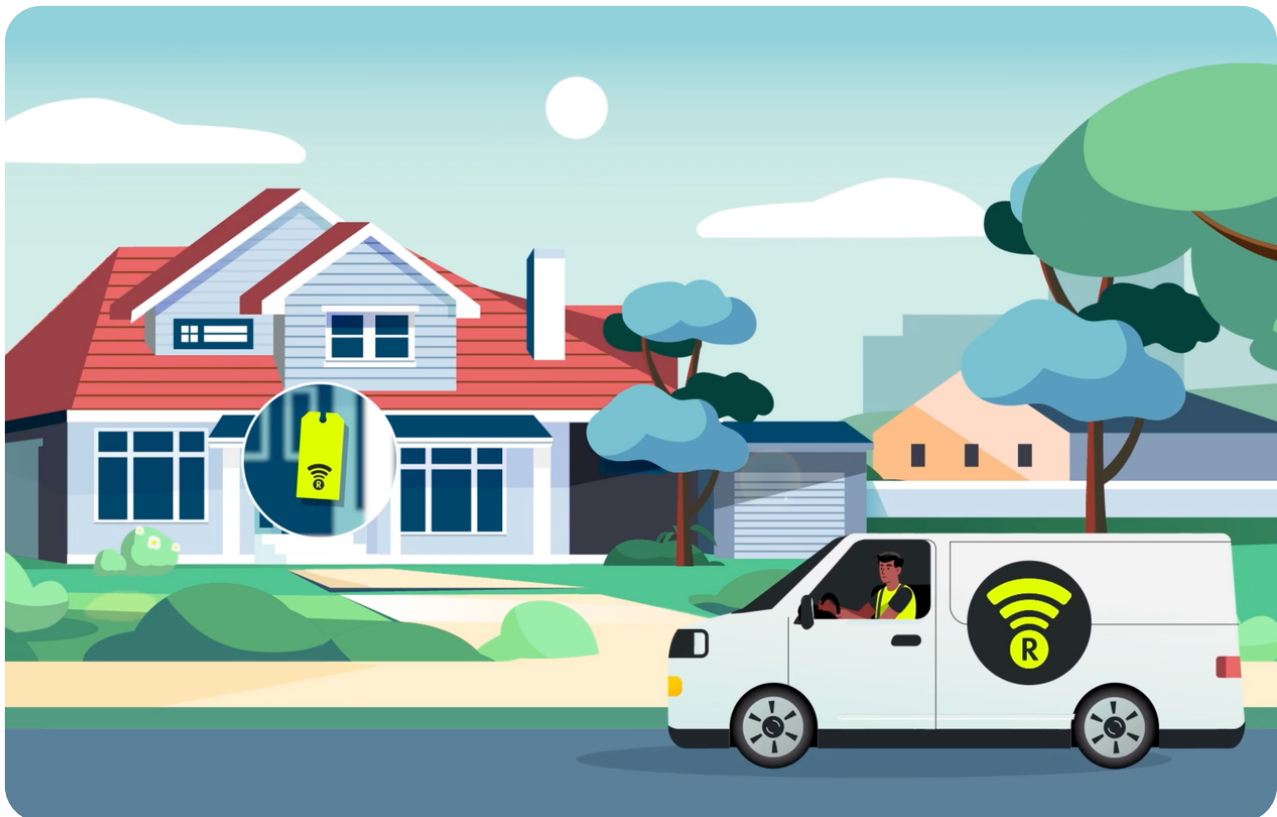

Our care doesn't stop there. Our White Glove Installation ensures the setup of your fiber internet is smooth and effortless. We'll communicate with you before arrival, thoughtfully assess your home, and promptly create a tailored plan for your equipment setup. From testing speeds and Wi-Fi coverage to connecting your devices, our trained technicians will optimize your in-home network and ensure your equipment performs at its best.

CONSTRUCTION PROCESS

In order to deliver groundbreaking technology, first we have to break some ground.

As community stewards, we're thoughtful in our planning. Through quality construction practices, we're building future-proof fiber infrastructure for communities to enjoy for years to come.
