

RIPPLE FIBER

**Yes. This is the brightest
press kit ever.**

It matches how we see the future.

We are for creating brighter futures.

EXECUTIVE LEADERSHIP

Greg Wilson | Founder & CEO

Wilson has over 20 years of telecommunications and business development experience. With an impressive entrepreneurial track record, he has the ability to identify business opportunities and validate business models. Most recently founding Ripple Fiber, Wilson has built multiple infrastructure and software service companies disrupting the telecom industry.

Lance van der Spuy | President

Van der Spuy has over 15 years of experience in business management, demonstrating expertise in operational excellence, financial proficiency, and corporate entrepreneurship. Directing each department head, he facilitates strategic alignment with success metrics, including business expansion, revenue growth, stakeholder engagement, and customer retention.

The biggest wave starts as a ripple.

Ripple Fiber provides thousands of homes with the brightest and fastest fiber internet solutions, powered by a 10-gig, 100 percent fiber optic network.

With its patented technology driving rapid expansion, Ripple Fiber is redefining connectivity for communities across North Carolina, South Carolina, Michigan, Massachusetts, Arkansas, Colorado, Florida, and Illinois.

Committed to promoting digital empowerment, Ripple Fiber believes the biggest wave starts as a ripple.

THE RIPPLE EFFECT

**We're here to
make ripples
and celebrate
others who do
the same.**

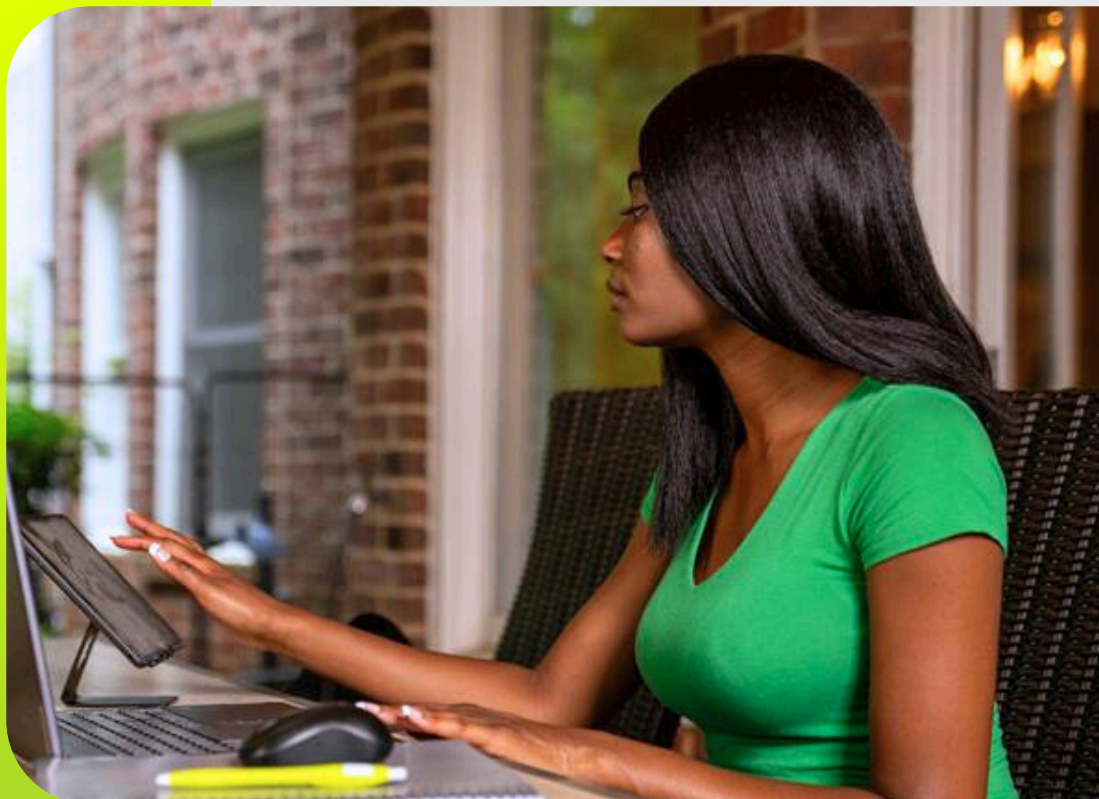

To us, it's more than just internet. We're here to empower people to make genuine connections. With friends, whether they're in the same room or across the globe. With artists and creators through instant access to every song, book, and film ever created. With educators in classrooms on different continents. We're for those working from their homes with teams in different time zones.

For helping people access opportunities previous generations could have only dreamed of.

It's about optimism. It's about believing that small actions can have big impacts.

We are Ripple Fiber.

Believe in Tomorrow

**We are
committed to
making a
positive
impact on the
communities
we serve.**

IMPACT

We believe in creating stronger connections – starting with people. With dedicated local teams, we're not just a service provider; we're your neighbors.

As fellow community members, we champion local initiatives, invest in digital infrastructure, and create opportunities for a brighter future.

We strive to be a force for good, leaving a lasting, positive impression on the world around us.

Our construction process

In order to deliver groundbreaking technology, first we have to break some ground. As community stewards, we're thoughtful in our planning. Through quality construction practices, we're building future-proof fiber infrastructure for communities to enjoy for years to come.

What's the Green Team?

It's how we exceed industry standards for post-construction land restoration. This dedicated team of landscape experts reinforces our commitment to provide an exceptional experience in the communities we serve.

We guarantee to return all land to its original state – or better. Equipped for complex landscaping needs, the Green Team delivers on that promise, from plant and shrub replacement to hardscape and sprinkler repair.
